Merchant: CELPIP Guide / celpippracticetest.com
Dispute ID: du_1TsWI7HBKaYwAPUKTKF5zXId
Charge ID: ch_3TS4oWHBKaYwAPUK0GypaviT
Invoice: FI2JKGMH-0004
Amount: CA\$179.98
Dispute reason (issuer): subscription_canceled
Merchant win reason: The cardholder received the product or service
Evidence due: 2026-07-28
Prepared: 2026-07-15

1. Summary

The cardholder disputes a valid subscription renewal for digital CELPIP exam practice access. Stripe records show the subscription was **not canceled**. After the disputed charge on **2026-05-01**, the cardholder continued to access and use the product (**431 activity events on 2026-05-08 and 2026-05-10**), including from the same IP used at purchase.

We request this dispute be decided in the merchant’s favor because the cardholder received and used the digital product/service covered by the charge.

2. Customer and subscription identifiers

FI2JKGMH-0004	2026-04-30 / charged 2026-05-01	subscription_cycle (DISPUTED)	CA\$179.98	Paid / Disputed

Disputed invoice line item: 2×3 Months (at \$89.99 / every 3 months), covering service period **2026-04-30** → **2026-07-30**.

4. Cancellation status (rebuttal to “subscription_canceled”)

Stripe subscription state at review:

- Status: **active**
- cancel_at_period_end: **false**
- canceled_at: **null**

There is no Stripe cancellation of this subscription before or after the disputed charge. The issuer reason “subscription_canceled” is inconsistent with Stripe billing records.

Our Terms of Service disclose that subscriptions renew automatically unless canceled before the renewal date, and that canceling prevents *future* charges only — it does not reverse or refund completed renewal charges. Refund Policy: <https://celpippracticetest.com/refund-policy>

Per policy, refunds are not available for subscription renewals. This disputed charge is the customer’s fourth invoice / a renewal, not a first purchase. The bank dispute was opened **2026-07-12**, more than 7 days after the **2026-05-01** charge.

5. Product delivery and usage after the charge

Digital access was delivered immediately upon successful payment. After the disputed charge, account activity logs show continued authorized use of the service:

Metric	Value
Activity window after charge	2026-05-08 to 2026-05-10
Total logged events	431

Prior recognized usage (before disputed period)

- Engagement snapshot: **94 practice tests completed**
- Last practice before renewal: **2026-04-29**
- Desktop session usage count recorded: **369**
- Customer since **2025-10-30** with multiple prior successful payments

6. Why the merchant should win

1. **Product/service was received and used** after the disputed payment.
2. **Subscription was not canceled in Stripe** (still active; cancel_at_period_end false).
3. Charge is a **renewal**, which is non-refundable under published Terms / Refund Policy.
4. Dispute was filed far outside the 7-day first-purchase refund window and without a valid refund platform request for this invoice.

7. Policy references

- Refund Policy: <https://celpippracticetest.com/refund-policy> (Last Updated: Jan 08, 2026)
- Refund request platform (sole accepted channel): <https://refund.celpippractice.ca>
- Terms: subscriptions auto-renew; cancellation stops future charges only; renewals are not refundable; chargebacks do not override policy.
